A

Academic Alliance Foundation
   as change agent, 380
   evolution of, 376–381
Accordia Foundation, 376–381
   as change agent, 380
Adult Male Circumcision Training eLearning Program, 391
Africa-U.S. partnership, in training leaders in global health, 399–409. See also Afya Bora Consortium.
Afya Bora Consortium, 399–409
   described, 399–400
   history of, 400
   Pilot program of
      Attachment Site rotations in, 402–403
      core curriculum blocks in, 401–402
      described, 401–405
      evaluation of, 404–405
      fellow recruitment and selection in, 403–404
      mentoring in, 404
      structure of, 401
   roles and responsibilities of partners in, 405

B

Bilateral donor governments, in global health governance, 442–445

C

CCGHE. See John Hopkins Center for Clinical Global Health Education (CCGHE).
Child Family Health International, 328–329
Children, of Mexican immigrants in U.S., 428–432
   access to health insurance and health services, 429–431
   health status of, 431–432
Civil society organizations, in global health governance, 449–450
Community(ies), role in global health, 300
Community health era, 301
Core competencies, in global health, 347–358. See also Global health, core competencies in.
Corporations, in global health governance, 449–450
Coutinho years, 379–380
Cultural barrier, as social determinant of health in Mexican immigrants in U.S., 424, 427
Displacement, health implications of, 349, 355
Distance learning
  benefits of, 394–397
  cost-effectiveness for resource-limited settings in, 387–388
  defined, 386–387
  empowerment and facilitation of south-north global health capacity building, 392–393
  empowerment and facilitation of south-south global health capacity building, 388–390
  evaluation of, 394
  feasibility of, 387–388
  limitations of, 394–397
  mHealth tools in supporting task shifting in, 390–392
  of CCGHE, 385–398. See also John Hopkins Center for Clinical Global Health Education (CCGHE), distance learning at.

Documentation status, as social determinant of health in Mexican immigrants in U.S., 424

eMOCHA (electronic Mobile Open-Source Comprehensive Health Application), 391–392

Equity, in global health, 300

Europe, universities’ role in global health in, 316

Global health
  capacity of, 359–367
    future of, 366
  changing ideas on nature of development in, 300
  communities(s) role in, 300
  contours of, 325–326
  core competencies in, 347–358
    creation of, 349–356
    future developments in, 356–357
    global burden of disease in, 349
    globalization of health and health care in, 356
    health implications of travel, migration, and displacement, 349, 355
    in low-resource settings, 356
    population, resources, and environment in, 355
    social and economic determinants of health in, 355
    challenges in, 307
    evolution to, 300–303
  evolving meanings in, 299–309
  governance of, 435–453
    architecture of, 437–449
    bilateral donor governments in, 442–445
    civil society organizations in, 449–450
    corporations in, 449–450
    current policy challenges for, 450
    driver for, 436–437
philanthropic foundations in, 448–449
public-private partnerships in, 445–448
UN agencies in, 437–439
UN General Assembly in, 439–442
WHO in, 437–439
historical roots of, 299–300
human rights in, 356
interdependence as factor in, 359–361
international agreements in
described, 455–456
history of, 456–457
legally binding agreements, 457–458
protocols, 457–458
treaties, 457–458
national considerations of, 459–460
non-binding agreements, 458–459
numbers of, 464–467
study of, 455–475
background of, 456–457
discussion of, 468
findings in, 460–468
methodology in, 456
taxonomy of, 457–459
types of, 464–467
U.S. government involvement in, process of, 463
justice and equity in, 300
medical schools' training for, 348–349
networking innovative academic institutions, 337–346
described, 337–338
THEnet, 339–341. See also Training for Health Equity Network (THEnet).
policy development for, 435–453
society in, 300
training leaders in, Africa-U.S. partnership for, 399–409. See also Afya Bora Consortium.
twenty-first century global health priority agenda, 295–297
universities' role in, 311–321, 326–327
addressing social determinants of health, 316–317
capacity building, 314
described, 311–312
health systems and, 314
historic perspectives on, 318–319
in Europe, 316
in middle-income and low-income countries, 314–315
in U.S., 315–316
recommendations for, 317–318
reform of medical education, 313
vision and mission statements, 312–313
workforce development for, 359–367
described, 361–364
future of, 366
partners' role in, 364–365
Global Health Bibliography, 331
Global Health Centers of Expertise and Excellence, 329
Global Health Curriculum Guidebook, The, 331–332
Global Health Directors Network, 332
Global health education, universities’ role in, 326–327
Global Health Education Consortium (GHEC), 323–335
awards, 332
described, 323–325
initiatives of, 330–332
annual and regional conferences, 330
Global Health Bibliography, 331
global health curriculum and competencies, 331
Global Health Curriculum Guidebook, The, 331–332
Global Health Directors Network, 332
global health modules, 331
Global Health Student and Resident Guidebook, 331
global health textbooks, 332
surgery of U.S. medical school participation in global health activities, 330
role of universities in global health and global health education and, 326–327
social accountability of universities and schools of medicine, 327–328
students’ role in, 329–330
universities and non-government networks associated with, 328–329
Global health era, 301–303
Global Health Fellowships, 328
Global health textbooks, 332
Globalization, defined, 337

H
Health
defined, 303
determinants of, 355
globalization of, 356
international, 303–304
defined, 359
of migrants, study of, 421–433. See also Immigrant(s), in U.S.; Migrant(s), health of, study of.
social determinants of
in Mexican immigrants in U.S., 424–427
universities’ role in, in global health, 316–317
Health care
globalization of, 356
in low-resource settings, 356
Health insurance, for Mexican immigrants in U.S., 424
Health systems, universities’ role in, in global health, 314
HIV/AIDS training, at Infectious Diseases Institute at Makerere University, Kampala, Uganda, 375–376
Human rights, in global health, 356

I
Immigrant(s), in U.S., 422–423
Mexican immigrants, 423–424
Index

access to care, 423–424
children of, 428–432
   access to health insurance and health services, 429–431
   health status of, 431–432
health insurance for, 424
health status of, 427
overview of, 423
social determinants of health, 424–427
women, 427–428

Individual health era, 301

Infectious Diseases Institute, at Makerere University, Kampala, Uganda, 369–383
   as change agent, 380
   building of, 372–373
   clinical programs of, 373–375
   contribution of, 380
   Coutinho years, 379–380
   HIV/AIDS training at, 375–376
   McAdam era, 379
   origin of, 369–372
   programs of, 372–373
   research program at, establishing of, 377–379
   second decade of, 381

Interdependence, as factor in global health, 359–361

International agreements, global health–related, 455–475. See also Global health,
   international agreements in.

International health, 303–304
   defined, 359

J

John Hopkins Center for Clinical Global Health Education (CCGHE), distance learning
   at, 385–398. See also Distance learning.
   providers in resource-limited settings using Web to learn, 387

Justice, in global health, 300

L

Learning, distance. See Distance learning.
Legally binding agreements, types of, 457–458
Linguistic barrier, as social determinant of health in Mexican immigrants in U.S., 424, 427
Low-income countries, universities’ role in global health in, 314–315
Low-resource settings, health care in, 356

M

Makerere University, Kampala, Uganda, Infectious Diseases Institute at, 369–383.
   See also Infectious Diseases Institute, at Makerere University, Kampala, Uganda.
McAdam era, 379
Medical education
   in sub-Saharan Africa, 411–420
   AKDN’s role in, 417–418
Medical education (continued)
   AKU’s role in, 417–418
   challenges for, 415–417
