*Note: Page numbers of article titles are in **boldface** type.*

## A

**Accident(s)**
- global health–related, 627–629

**African Science Academy Development Initiative**, 493–494

**AITRP**, 519

**Altruism**
- in global health, 540

**APACPH. See Asia Pacific Academic Consortium for Public Health (APACPH)**

**Asia Pacific Academic Consortium for Public Health (APACPH),** *537–554*
  - in N-S partnerships
    - case study of, 546–547
  - S-S-N collaborative model of development of
    - catalysts in, 547–549
  - in vulnerable populations, 549–550

**Association of Schools of Public Health (ASPH) Competency Initiatives**
  - in global health
    - current status of, 579–583

**Association of Schools of Public Health (ASPH) Global Health Competencies Model Development Project**, 583–586

## B

**Bangladesh**
- childhood injuries in, 627

**BASIC**, 487

**Basic science research and education, *669–676***
  - described, 669–670
  - in global health
    - in developing countries, *669–676*
      - current status of, 670–671
      - methods for strengthening of, 672–675
      - problems related to, 671–672

**BHP. See Botswana-Harvard AIDS Institute Partnership (BHP)**

**Botswana-Harvard AIDS Institute Partnership (BHP)**, 519

**BRIC**, 487

## C

**Capacity building**
- as empowerment
Capacity (continued)
  cosmopolitan calling for
