Index

Note: Page numbers of article titles are in **boldface** type.

A

African histoplasmosis
  laboratory diagnosis of, 515, 536
African tick-bite fever
  laboratory diagnosis of, 515
African trypanosome(s)
  biology of, 261–262
African trypanosomiasis
  human. See Human African trypanosomiasis (HAT)
  laboratory diagnosis of, 522, 527–529
Alphavirus(es), 485–487
Alphavirus arthritis
  clinical features of, 491
Alveolar echinococcosis, 426–427
Amebiasis, 328–333
  cause of, 328–329
  clinical presentation of, 329–330
  complications of, 330–332
  epidemiology of, 329
  laboratory diagnosis of, 515
  management of, 332
  prevention of, 333
  transmission of, 329
Ameboma, 331
American trypanosomiasis, **275–291**. See also Chagas disease (American trypanosomiasis)
Anaphylaxis
  diagnosis of, 219
  symptoms of, 219
Ant(s)
  venomous, 218–220
Arboviral encephalitis
  clinical features of, 491
Arbovirus(es), **479–496**. See also specific types
  bunyaviruses, 483–484
  clinical features of, 489–491
  epidemiology of, 480
  families of, 481–487
  flavivirus, 481–483
  reoviruses, 485
  taxonomy of, 480
togaviruses, 485–487
Arbovirus(es) (continued)
  transplant-associated and blood transfusion–associated, 235–236
Arboviruses
  laboratory diagnosis of, 540–541
Arenaviruses, 488
Artemisinin-containing combination therapies (ARTs)
  in malaria management, 249–255
Arthritis
  alphavirus
    clinical features of, 491
Arthropods
  venomous, 218–220
ARTs. See Artemisinin-containing combination therapies (ARTs)
Ascariasis
  laboratory diagnosis of, 515
Ascaris lumbricoides
  life cycle of, 342

B
Babesiosis
  laboratory diagnosis of, 515
Bacterial infections
  GI
    tropical, 437–453. See also specific infections and Gastrointestinal (GI) infections,
    tropical bacterial
    transplant-associated and blood transfusion–associated, 227–229
    tropical
      laboratory diagnosis of, 541
Bartonellosis
  laboratory diagnosis of, 515
Bee(s)
  venomous, 218–220
Benznidazole
  for Chagas disease, 285–288
Bite(s)
  venomous, 207–223
Blood
  parasites in
    tropical infections due to
      laboratory diagnosis of, 514–524
Blood transfusion(s)
  tropical and parasitic infections associated with, 225–241. See also Parasitic infections;
    Tropical infections; specific infections and Parasite(s)
Body louse-borne rickettsioses
  in North Africa, 466–467
Brucellosis
  laboratory diagnosis of, 515–516, 542–543
  transplant-associated and blood transfusion–associated, 228–229
Brugia spp.
  life cycle of, 369–370
Bunyaviruses, 483–484
nairoviruses, 484
orthobunyavirus, 483–484
phleboviruses, 484
Buruli ulcer
   laboratory diagnosis of, 515–516, 545

C
CCHF. See Congo-Crimean hemorrhagic fever (CCHF)
Cestode(s)
   life cycle of, 421
Cestode infestations, 421–435. See also specific types
   coenurosis, 432
cysticercosis, 427–432, 517, 527
described, 421–422
echinococcosis
   alveolar, 426–427
cystic, 422–426
   sparganosis, 432
Chagas disease (American trypanosomiasis), 230–232,
   275–291
   cause of, 275
   clinical manifestations of, 279–283
      in acute disease, 279
      in chronic disease, 279–283
         cardiac form, 280
         cardioidigestive form, 283
         digestive form, 280–283
diagnosis of, 283–285
epidemiology of, 230, 277–278
geographic distribution of, 277–278
historical perspective on, 275–276
laboratory diagnosis of, 522, 527–529
in nonendemic countries, 278
pathogenesis of, 278–279
prevention of, 231–232
screening of, 231–232
transmission of
   mechanisms of, 276–277
   transplant-associated and blood transfusion–associated, 231
treatment of, 285–288
in US, 278
Chemotherapy
   for cystic echinococcosis, 425–426
Chikungunya virus, 485–486
   clinical features of, 491
   laboratory diagnosis of, 516
Chromoblastomycosis, 502–503
   laboratory diagnosis of, 516, 536–537
Clonorchiasis
  laboratory diagnosis of, 516
Cnidarians, 217–218
Coelenterates, 217–218
Coenurosis, 432
Coltiviruses, 485
Congo-Crimean hemorrhagic fever (CCHF), 484
  laboratory diagnosis of, 516
Coral(s)
  stinging, 217–218
Cryptosporidiosis, 326–328
  cause of, 326–327
  clinical presentation of, 327–328
  distribution of, 326
  epidemiology of, 327
  laboratory diagnosis of, 516
  management of, 328
  prevention of, 328
  transmission of, 327
Cryptosporidium spp.
  life cycle of, 326
  specialized stains and techniques in detection of, 533
Cutaneous leishmaniasis. See Leishmaniasis(es), cutaneous
Cutaneous mycoses
  tropical, 498–502
Cyclospora cayetanensis
  life cycle of, 333
  specialized stains and techniques in detection of, 533
Cyclosporiasis, 333–334
  laboratory diagnosis of, 516
Cystic echinococcosis, 422–426. See also Echinococcosis(es), cystic
Cysticerci
  extraparenchymal, 430–431
Cysticercosis, 427–432
  causes of, 427
  clinical manifestations of, 429–431
  diagnosis of, 431–432
  epidemiology of, 427–428
  laboratory diagnosis of, 517, 527
  pathobiology of, 428–429
  terminology related to, 427
  treatment of, 432
Cystoisospora belli
  specialized stains and techniques in detection of, 533
Cystoisosporiasis
  laboratory diagnosis of, 516

D
DCL. See Diffuse cutaneous leishmaniasis (DCL)
Dengue hemorrhagic fever/dengue shock syndrome
clinical features of, 490
laboratory diagnosis of, 517

Dengue virus, 481
clinical features of, 489–491

Diarrhea
infectious
management of, 446
traveler’s
laboratory diagnosis of, 522

Diffuse cutaneous leishmaniasis (DCL)
clinical presentation of, 296

Disseminated leishmaniasis (DL)
clinical presentation of, 296, 297
DL. See Disseminated leishmaniasis (DL)

Dracunculiasis, 360–366
burden of, 362–364
clinical features of, 362–364
control of, 364–366
diagnosis of, 364
epidemiology of, 360–361
prevention of, 364, 366
treatment of, 364

*Dracunculus medinensis*
life cycle of, 360–361

E

Ebola virus, 488
clinical features of, 490–491

Echinococcosis(es), 527
alveolar, 426–427
cystic, 422–426
clinical manifestations of, 423
described, 422
diagnosis of, 423–424
epidemiology of, 422–423
treatment of, 424–426
laboratory diagnosis of, 517

*Echinococcus* spp.
life cycle of, 421–422, 426

Elapid(s)
clinical features of, 208–209

Encephalitis
arboviral
clinical features of, 491
Japanese, 482
laboratory diagnosis of, 518
tick-borne, 482–483

*Encephalitozoon* spp.
life cycle of, 334

Encephalopathic syndrome
Encephalopathic (continued)
sleeping sickness and
treatment of, 270–271
Entamoeba histolytica
life cycle of, 328
specialized stains and techniques in detection of, 534
Enteric fever
management of, 446
Enteric vaccines
for tropical bacterial GI infections, 447–448
Enterobiasis, 349–351
Enterobius vermicularis
life cycle of, 349–350
Eosinophilic meningitis
laboratory diagnosis of, 517, 529
Eumycetoma, 503–504
Europe
tropical diseases in, 196–197

F
Fasciola spp.
life cycle of, 404–405
Fascioliasis
laboratory diagnosis of, 517
Fasciolopsiasis
laboratory diagnosis of, 517
Filariasis(es), 359–381. See also specific types
drancunculiasis, 360–366
laboratory diagnosis of, 517–518, 524–526
loiasis, 373–375
lymphatic, 369–373
burden of, 370
clinical features of, 370
control of, 372–373
diagnosis of, 370–372
epidemiology of, 369–370
prevention of, 372–373
treatment of, 370–372
mansonellosis, 375–376
in North America, 362
onchocerciasis, 366–369
Filoviruses, 487–488
Fish
venomous, 213–215
Flaviviruses, 481–483
dengue virus, 481, 489–491
Japanese encephalitis, 482, 518
tick-borne encephalitis, 482–483
West Nile virus, 482, 523
yellow fever, 481–482, 523
Flea-borne rickettsioses
  in North Africa, 464–466
Flea-borne spotted fever
  in North Africa, 464–465
Flea-borne typhus
  in North Africa, 465–466
Fluke infections. See Liver fluke infections; Lung fluke infections
Fungal infections
  classification of, 497
  tropical, 497–512. See also specific types
    cutaneous mycoses, 498–502
    laboratory diagnosis of, 536
    in returning travelers, 507–508
    subcutaneous mycoses, 502–506. See also Subcutaneous mycoses, tropical
    superficial mycoses, 498–502

G
Gastrointestinal (GI) diseases
  burden of, 437–439
Gastrointestinal (GI) infections
  burden of, 437–439
  protozoan, 323–339. See also specific infections and Protozoan infections, of GI tract
  tropical bacterial, 437–453
    diagnosis of, 439–444
      blood cultures and serology in, 443–444
      NAATs in, 443
      stool culture in, 439–443
    management of, 446
    pathogenesis of, 444–446
    pathophysiology of, 444–446
    prevention of, 447–448
GI tract. See Gastrointestinal (GI) tract
Giardia lamblia
  life cycle of, 323
Giardiasis, 323–325
  clinical presentation of, 324–325
  complications of, 325
  distribution of, 323
  epidemiology of, 324
  laboratory diagnosis of, 518
  management of, 325
  prevention of, 325
  transmission of, 323
Gnathostomiasis
  laboratory diagnosis of, 518
Guinea worm disease, 360–366. See also Dracunculiasis

H
Hantavirus(es), 489
Hantavirus pulmonary syndrome (HPS), 489
HAT. See Human African trypanosomiasis (HAT)
HBV infection. See Hepatitis B virus (HBV) infection
HCV infection. See Hepatitis C virus (HCV) infection

Helminthiasis
soil-transmitted, 342–349
  clinical features of, 345–348
  control of, 349
  diagnosis of, 348–349
  epidemiology of, 342–345
  prevention of, 349
  treatment of, 348–349

Hepatitis B virus (HBV) infection
  transplant-associated and blood transfusion–associated, 234

Hepatitis C virus (HCV) infection
  transplant-associated and blood transfusion–associated, 235

Histoplasmosis
  African
    laboratory diagnosis of, 515, 536

HIV infection
  transplant-associated and blood transfusion–associated, 233
  VL with, 319–320

Hookworm, 342–349. See also Helminthiasis, soil-transmitted
  laboratory diagnosis of, 518

Hornet
  venomous, 218–220

HPS. See Hantavirus pulmonary syndrome (HPS)

HTLV-1, HTLV-2 virus
  laboratory diagnosis of, 518, 541

Human African trypanosomiasis (HAT), 261–273
  clinical presentation of, 263–266
    in endemic countries, 263–266
      T. brucei gambiense HAT, 263–265
      T. brucei rhodesiense HAT, 265–266
    in nonendemic countries, 266
  diagnosis of, 267–268
  epidemiology of
    in endemic countries, 262–263
    in travelers and immigrants, 263
  prevention of
    after tsetse fly bite, 271
  radiologic findings in, 266
  relapse from
    diagnosis of, 268
  treatment of, 268–271
    in endemic countries, 268–269
    in nonendemic countries, 269–270

Immigrant(s)
  HAT in
    epidemiology of, 263
Infection(s). *See specific types*

**Israeli spotted fever**
- in North Africa, 461

**J**

Japanese encephalitis, 482
- laboratory diagnosis of, 518

**K**

Kala-azar. *See Visceral leishmaniasis (VL)*

**L**

La Crosse virus, 483
Lassa fever, 488

**LCL. See Localized cutaneous leishmaniasis (LCL)**

*Leishmania* spp.
- life cycle of, 294
- transmission cycles of, 295

**Leishmaniasis(es), 293–307**
- causes of, 294–295
- clinical presentation of, 295–297
- cutaneous
  - diffuse
    - clinical presentation of, 296
    - laboratory diagnosis of, 519, 526
  - localized
    - clinical presentation of, 296
described, 293–295
diagnosis of, 298–299
disseminated
  - clinical presentation of, 296, 297
incidence of, 293–294
laboratory diagnosis of, 519, 526
mucosal
  - clinical presentation of, 297
in nonendemic areas, 295
post-kala-azar, 296
tegmentary
  - clinical presentation of, 295–296
transplant-associated and blood transfusion–associated, 232
in travelers, 295
treatment of, 299–304
visceral, 309–322. *See also Visceral leishmaniasis (VL)*

**Leishmaniasis recidiva cutis (LR)**
- clinical presentation of, 296, 297

**Leprosy**
- laboratory diagnosis of, 519, 544–545

**Leptospirosis**
- laboratory diagnosis of, 519, 545–546
Liver fluke infections, 399–419
- burden of, 401–404
- clinical signs and symptoms of, 405–407
- diagnosis of, 408–409
- distribution of, 401–404
- epidemiology of, 400–401
- introduction to, 400
- prevention of, 410
- transmission of, 404–405
- treatment of, 409–410

Lizard(s)
- venomous, 213

Loa loa
- life cycle of, 373

Lobomycosis, 504–505
- laboratory diagnosis of, 519, 537

Localized cutaneous leishmaniasis (LCL)
- clinical presentation of, 296

Loiasis, 373–375
- laboratory diagnosis of, 524–526

LR. See Leishmaniasis recidiva cutis (LR)

Lung fluke infections, 399–419
- burden of, 401–404
- clinical signs and symptoms of, 405–407
- diagnosis of, 408–409
- distribution of, 401–404
- epidemiology of, 400–401
- introduction to, 400
- prevention of, 410
- transmission of, 404–405
- treatment of, 409–410

Lymphatic filariasis, 369–373. See also Filariasis(es), lymphatic

M

Malaria
- clinical features of, 247
- diagnosis of, 247–248
  - early, 255
- epidemiology of, 229, 244–245
- falciparum
  - management of, 248–255
    - in nonsevere disease, 249–251
    - in severe disease, 251–253
- historical perspective on, 243–244
- introduction to, 243–244
- laboratory diagnosis of, 519, 523–524
- management of, 248–255
  - ARTs in, 249–255
    - for falciparum malaria, 249
      - nonsevere, 249–251
      - severe, 251–253
for non-falciparum malaria, 253–254

non-falciparum
management of, 253–254
pathogenesis of, 245–247
pregnancy and, 255
prevention of, 230
bite-related, 255
chemoprophylaxis, 254
personal, 254
relapsing
pathogenesis of, 245–246
screening of, 230
severe
clinical features of, 247
pathogenesis of, 246–247
transplant-associated and blood transfusion–associated, 229–230
update on, 243–259

_Mansonella perstans_
life cycle of, 375
Mansonellosis, 375–376
Marburg virus, 488
Marine invertebrates
venomous, 217–218
Mediterranean spotted fever
in North Africa, 460–461
Melioidosis
laboratory diagnosis of, 520, 541–542
Meningitis
eosinophilic
laboratory diagnosis of, 517, 529
Microsporidia
specialized stains and techniques in detection of, 533–534
Microsporidiosis, 334–336
laboratory diagnosis of, 520
Mucosal leishmaniasis
clinical presentation of, 297
Mycetoma
laboratory diagnosis of, 520, 537
Mycosis(es)
cutaneous
tropical, 498–502
subcutaneous
tropical, 502–506. See also Subcutaneous mycoses, tropical
superficial

tropical, 498–502

N

NAATs. See Nucleic acid amplification tests (NAATs)
Nematode infections, 341–358. See also specific infections
Nematode (continued)
described, 341–342
dracunculiasis, 360–366
enterobiasis, 349–351
filariases, 359–381
lymphatic, 369–373
loiasis, 373–375, 524–526
mansonellosis, 375–376
onchocerciasis, 366–369, 524–526
soil-transmitted helminthiasis, 342–349
toxocariasis, 351–352
trichinellosis, 352–354
Neurocysticercosis
parenchymal, 429
Nifurtimox
for Chagas disease, 285–288
North Africa
travelers from
rickettsioses in, 467–468
vector-borne rickettsioses in, 455–478. See also specific types and Rickettsiosis(es), vector-borne, in North Africa
Nucleic acid amplification tests (NAATs)
in tropical bacterial GI infections, 443

O
Onchocerca volvulus
life cycle of, 366–367
Onchocerciasis, 366–369
burden of, 367
clinical features of, 367
control of, 369
diagnosis of, 367–369
epidemiology of, 366–367
laboratory diagnosis of, 524–526
prevention of, 369
treatment of, 367–369
Oropouche, 484
Oroya fever
laboratory diagnosis of, 544
Orthobunyavirus, 483–484

P
Paracoccidioidomycosis
laboratory diagnosis of, 520, 538–539
Paragonimiasis
laboratory diagnosis of, 520
Parasite(s)
blood- and tissue-related
tropical infections due to
laboratory diagnosis of, 514–524

Index
tropical intestinal
  laboratory diagnosis of, 529
Parasitic diseases
  transmission of, 200–202
Parasitic infections
  transplant-associated and blood transfusion–associated, 225–241
    introduction to, 225–227
Parenchymal lesions
  calcified, 429–430
Parenchymal neurocysticercosis, 429
Penicilliosis
  laboratory diagnosis of, 521, 539
Phleboviruses, 484
Pit vipers
  clinical features of, 210
PKDL. See Post-kala-azar leishmaniasis (PKDL)
Poisoning(s)
  venomous, 207–223
Portuguese-men-o’-war, 217–218
Post-kala-azar leishmaniasis (PKDL)
  clinical presentation of, 296
  treatment of, 319
Pregnancy
  malaria and, 255
Protozoan infections
  of GI tract, 323–339. See also specific infections
    amebiasis, 328–333
    cryptosporidiosis, 326–328
    cyclosporiasis, 333–334
    giardiasis, 323–325
    microsporidiosis, 334–336
    transplant-associated and blood transfusion–associated, 229–232. See also specific infections
      Chagas disease, 230–232
      leishmaniasis, 232
      malaria, 229–230
Puumala fever, 489

R
Rabies
  transplant-associated and blood transfusion–associated, 236–237
Reoviruses, 485
Rickettsia aeschlimannii infections
  in North Africa, 461–462
Rickettsia sibirica mongolitimonae infections
  in North Africa, 462
Rickettsiae
  described, 455
  exposure to, 457
Rickettsial diseases
Rickettsial (continued)
laboratory diagnosis of, 521, 546–547
Rickettsial infections
tropical
laboratory diagnosis of, 541
Rickettsioses
body louse-borne
in North Africa, 466–467
flea-borne
in North Africa, 464–466
  flea-borne spotted fever, 464–465
  flea-borne typhus, 465–466
laboratory diagnosis of, 521
tick-borne
in North Africa, 457–464
  Israeli spotted fever, 461
  Mediterranean spotted fever, 460–461
  *Rickettsia* spp. infections, 461–464
vector-borne
described, 455–457
exposure to, 457
historical background of, 455–457
in North Africa, 455–478
  body louse-borne rickettsioses, 466–467
diagnosis of, 468–470
  flea-borne rickettsioses, 461–464
tick-borne rickettsioses, 457–464
treatment of, 470–473
in travelers from North Africa, 467–468
Rift Valley fever virus (RVFV), 484
  laboratory diagnosis of, 521
RVFV. See Rift Valley fever virus (RVFV)

S
*Sarcocystis* spp.
specialized stains and techniques in detection of, 533
Sarcocytosis
laboratory diagnosis of, 516
Schistosome(s)
described, 383
Schistosomiasis, 383–397
  acute, 383
  complications of, 383
  control of, 383, 394–395
described, 383
diagnosis of, 383, 392–393
distribution of, 383, 386–387
ectopic
  pathology of, 392
epidemiology of, 386–387
hepatosplenic
pathology of, 390–391
intestinal
  pathology of, 390–391
laboratory diagnosis of, 521
parasites in, 383, 384
pathology of
  acute, 387–388
  chronic, 388–392
swimmer’s itch associated with, 383
symptoms of, 383
transmission of, 383–386
treatment of, 383, 393–394
urinary
  pathology of, 383, 388–390
Scorpion(s)
  venomous, 220
Sea anemones, 217–218
Sea urchins
  venomous, 218–220
Seadornaviruses, 485
Seoul virus, 489
Severe fever with thrombocytopenia syndrome (SFTS), 484
SFTS. See Severe fever with thrombocytopenia syndrome (SFTS)
Shellfish
  poisonous, 215–216
Sleeping sickness
  encephalopathic syndrome due to
    treatment of, 270–271
Snake(s)
  venomous, 207–213
    clinical features of, 208–210
    epidemiology of, 207–208
    families of, 207
    laboratory investigation of, 210
    management of, 211–213
    prevention of, 208
    venoms in, 208
South America
  VHFs in, 488
Sparganosis, 432
Spider(s)
  venomous, 220–222
Sporotrichosis, 505–506
Spotted fever
  flea-born, 464–465
Starfish
  venomous, 218–220
Sting(s)
  venomous, 207–223
**Strongyloides stercoralis**
- life cycle of, 342
- specialized stains and techniques in detection of, 534–535

**Strongyloidiasis**
- laboratory diagnosis of, 521

**Subcutaneous mycoses**
- tropical
  - chromoblastomycosis, 502–503
  - eumycetoma, 503–504
  - lobomycosis, 504–505
  - sporotrichosis, 505–506

**Superficial mycoses**
- tropical, 498–502

**Swimmer’s itch**
- schistosomiasis and, 383

**T**

**Tahyna virus**, 483

**Tapeworm(s)**
- life cycle of, 421

**Tapeworm infection**
- laboratory diagnosis of, 522

**Tapeworm infestations, 421–435. See also specific types and Cestode infestations**

**Tick-borne encephalitis**, 482–483

**Tick-borne rickettsioses**
- in North Africa, 457–464. See also Rickettsiosis(es), tick-borne

**Tissue(s)**
- parasites in
  - tropical infections due to
    - laboratory diagnosis of, 514–524

**Togaviruses**, 485–487
- Chikungunya virus, 485–486
- encephalitic, 487

**Toxocara spp.**
- life cycle of, 351

**Toxocariasis**, 351–352

**Transfusion(s)**
- blood
  - tropical and parasitic infections associated with, 225–241. See also Parasitic infections; Tropical infections; specific infections and Parasite(s)

**Transplantation(s)**
- tropical and parasitic infections associated with, 225–241. See also Parasitic infections; Tropical infections; specific infections and Parasite(s)

**Traveler(s)**
- HAT in
  - epidemiology of, 263
- leishmaniasis in, 295
- from North Africa
  - rickettsioses in, 467–468
- tropical fungal infections in returning, 507–508
VL in
  prevention of, 319
Traveler’s diarrhea
  laboratory diagnosis of, 522
Trematode infections, 399–419
  burden of, 401–404
  clinical signs and symptoms of, 405–407
  diagnosis of, 408–409
  distribution of, 401–404
  epidemiology of, 400–401
  introduction to, 400
  prevention of, 410
  transmission of, 404–405
  treatment of, 409–410
Trench fever
  laboratory diagnosis of, 522, 544
Trichinella spp.
  life cycle of, 352–353
Trichinellosis, 352–354
Trichinosis
  laboratory diagnosis of, 522, 527
Trichuriasis
  laboratory diagnosis of, 522
Trichuris trichiura
  life cycle of, 342
Tropical diseases, 195–205
  bacterial GI infections, 437–453. See also specific infections and Gastrointestinal (GI) infections, tropical bacterial
  classification of, 197–202
  deaths due to, 195–196
  described, 195
  geographic distribution of, 202–203
  literature sources on, 203–204
  transmission of, 200–202
  in United Kingdom, Europe, and US, 196–197
Tropical infections. See also specific types
  fungal infections, 497–512. See also Fungal infections, tropical

  Verruga peruana, 544
  viral infections, 539–540
  transplant-associated and blood transfusion–associated, 225–241
  introduction to, 225–227

Trypanosoma brucei gambiense HAT
  clinical presentation of
    in endemic countries, 263–265
  diagnosis of, 267

Trypanosoma brucei rhodesiense HAT
  clinical presentation of
    in endemic countries, 265–266
  diagnosis of, 267–268

Trypanosoma cruzi
  Chagas disease due to, 275–276
  life cycle of, 277

Trypanosome(s)
  African
    biology of, 261–262

Trypanosomiasis(es)
  African
    human. See Human African trypanosomiasis (HAT)
laboratory diagnosis of, 522, 527–529
American, 275–291. See also Chagas disease (American trypanosomiasis)

Tsetse fly
HAT after bite from, 271

Tuberculosis, 227–228
epidemiology of, 227–228
prevention of, 228
screening of, 228
in transplant patients
transmission in, 228

Typhoid fever
laboratory diagnosis of, 523, 543

Typhus
flea-borne
in North Africa, 465–466

U

Ulcer(s)
Buruli
laboratory diagnosis of, 515–516, 545

United Kingdom
tropical diseases in, 196–197

United States (US)
tropical diseases in, 196–197

V

Vaccine(s)
enteric
for tropical bacterial GI infections, 447–448

Vector-borne rickettsioses
in North Africa, 455–478. See also specific types and Rickettsiosis(es), vector-borne,
in North Africa

Venom(s)
snake, 208
Venomous arthropods, 218–220
Venomous fish, 213–215
Venomous lizards, 213
Venomous marine invertebrates, 217–218
Venomous snakes, 207–213. See also Snake(s), venomous
Verruga peruana
laboratory diagnosis of, 544

VHF. See Viral hemorrhage fevers (VHFs)

Vipers
clinical features of, 210

Viral hemorrhage fever (VHF) syndrome
clinical features of, 490

Viral hemorrhage fevers (VHFs), 479–496
clinical features of, 489–491
diagnosis of, 491–492
introduction to, 479–480
nonarboviral agents of, 487–489
Viral (continued)
arenaviruses, 488
filoviruses, 487–488
hantaviruses, 489
prevention of, 492
severe
types of, 490–491
South American, 488
treatment of, 492
Viral infections
transplant-associated and blood transfusion–associated, 233–237
arbovirus, 235–236
HBV infection, 234
HCV infection, 235
HIV infection, 233
rabies, 236–237
tropical
laboratory diagnosis of, 539–540
Visceral leishmaniasis (VL), 309–322
causes of, 309
clinical presentation of, 312
described, 309
diagnosis of, 313–315
epidemiology of, 309–310
HIV infection with, 319–320
laboratory diagnosis of, 519, 526
pathogenesis of, 310–312
prevention of
for travelers, 319
transmission of, 309–310
treatment of, 315–319
combination therapy in, 318
individual drugs in, 315–318
monitoring of, 318–319
in PKDL, 319
VL. See Visceral leishmaniasis (VL)

W
Wasp(s)
venomous, 218–220
West Nile virus, 482
laboratory diagnosis of, 523
Wuchereria bancrofti
life cycle of, 369–370

Y
Yellow fever, 481–482
laboratory diagnosis of, 523
Yellowjacket
venomous, 218–220
